

Climate Change is Already Here: The Problem, Its Impacts and How We Solve it

NEW DATE - A ZOOM Presentation

Wednesday, February 21, 2024 – 4:00 – 5:00 pm

**Sponsored by the Climate Action Group
the Federated Garden Clubs of Maryland**

Climate change is our new reality and its impacts are accelerating. Fortunately, because we know what causes climate change, we also know how to solve it. The great majority of Americans are now concerned about the problem and support governmental policies for solutions. More and more people want to reduce their own climate impact but many are not certain which actions are the most effective.

Why Attend?

- Learn what causes for climate change
- Understand the acceleration of climate impacts
- Hear key climate solutions at the national and local level
- Consider the most effective ways to make you and your family part of the climate solution.
- Q&A Session

Our Speaker:

Dr. Sara Via is a Climate Change Educator and Evolutionary Geneticist. A leader in the field and you'll want to hear from this highly energetic presenter. After a 35-year research career, Sara began teaching about climate change impacts and solutions. She has given hundreds of talks to community groups and many webinars on various topics in climate change and sustainability (see www.climatecorner.org for links to the videos).

TWO FORMS OF REGISTRATION ARE AVAILABLE: mail-in registration form below with check (must be received by Friday, February 16th) or Eventbrite registration online. **Cost:** \$5.00 by check payable to FGCMMD or \$7.18 payable via Event Brite – scan QR code or click on this link
