

A Workshop of Programs for Youth Grades K through 12

Wednesday September 13th, 2023

Sponsored by the Federated Garden Clubs of Maryland, Inc.

Why go WILD?

Project WILD is a great way to incorporate environmental education into your programs. WILD activities can be done indoors or outdoors, are flexible enough to fit almost the needs of almost any facilitator, and are comprehensive enough so that minimal preparation is required by the user. Project WILD is ideal for classroom teachers, environmental educators, park and nature center personnel, Scout, Campfire and 4-H leaders and others who work with young people.

Attend our workshop!

During workshops, participants will get a chance to try out a variety of WILD activities. The basic materials include two activity guides for K-12:

- the Project WILD K-12 Activity Guide which focuses on terrestrial wildlife and habitat,
- and the Aquatic WILD Guide which emphasizes aquatic wildlife and aquatic ecosystems.
- Both guides are provided after attending a six hour training workshop.
